## Who am I and what do I stand for?

In the next few lines you will get to know the person who supported the German Government in achieving an unprecedented reduction of the unemployment rate on a record low, in guaranteeing an equalised budget over the last three years and who is fighting for Bonn as linchpin for international politics.

**About Claudia Lücking-Michel, Ph.D.:** I am 55 years old and have been living in Bonn-Lessenich with my husband and my three children for many years. Since 2013, I represent you and the city of Bonn in the German Bundestag. Before my time as Member of Parliament, I worked as Secretary General for the Cusanuswerk foundation, which promotes scholarship holders and education programs here in Bonn. Prior to that, I was director of the federal department of Misereor. Furthermore, I am vice president of the central committee of German Catholics on a voluntary basis. My family supports me in all my various functions and positions.

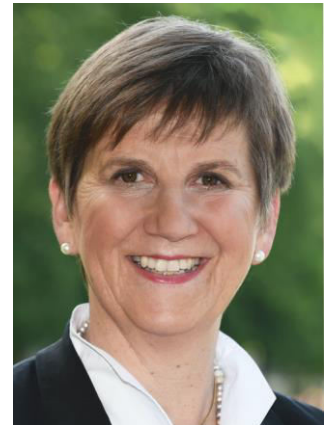

In the following, you will find brief information about my future plans how to continue my successful work:

### **Stand by the Bonn/Berlin Act** – develop the UN location

- Enhance Bonn's internationality – attract further international organisations
- Establish the position of the Director of the Liason Office between the Federal Foreign Office and the United Nations in Bonn
- Consolidate the UN Campus in Bonn – Hospitable Country Act necessary
- Finance the construction of international day-care centres and schools with federal funds

### **Family** – enhance the quality and quantity of childcare

- Demand family-oriented human resources management – occupational childcare
- Better support for single parents
- Reduce the bureaucratic effort behind engaging a domestic aid or a nurse on a mini-job basis
- Design the transitions between domestic, ambulant and stationary care more flexible for care-dependent people and their relatives
- Integrate refugees and give them a perspective

**Economy and middle class** – secure jobs and develop the industrial zones

- Establish shared estate concepts of Bonn and the Rhein-Sieg region
- Reduce bureaucracy – on the federal level we should support the capability of innovation of small and medium-sized enterprises
- Promote start-ups, especially those regarding digitalisation
- Support positive tourism trends – Bonn's special cultural mission

**Security** – crime, extremism and vandalism do not belong to Bonn!

- Reinforce the police presence, enhance the strategy to fight and elucidate crimes
- Improve video surveillance
- Expand the prohibition of face-covering as far as possible
- Establish a House of Security to unite the city, state and federal police near Bonn Central Station

**Education and research** – strengthen Bonn as an educational centre

- Bonn University shall successfully apply for the next tranche of the Excellence Initiative
- Enhance Bonn University with a new campus in Poppelsdorf and a renovated underground garage
- Establish a centre of sustainability in the former buildings of the children's hospital
- Improve the vocational orientation – offer more possibilities for high-performing students and for those requiring more support
- Valorise the apprenticeship, also compared to Bachelor's or Master's degree

**Traffic and environment** – Bonn's infrastructure did not keep up with the city's development

- Urgently adapt the traffic concept to the increasing demand – build better infrastructure for commuters – widen the offer of park & ride spaces
- Examine the cableway project – reinforce the commuter traffic to the Venusberg
- Expand the e-mobility which completes the public transport in a reasonable way and reduces traffic noise
- Construct a route network for cyclists and establish a bike sharing system

**CLAUDIA  
LÜCKING-MICHEL**  
Für Bonn im Bundestag

**Culture** – adequately celebrate Beethoven’s jubilee 2020 with the support of the federal government

- Promote the idea of a Beethoven Campus Festival
- The federal government should finance more cultural projects like the renovation of the Münster cathedral
- Support the variety of museums in Bonn
- Offer various sportive and recreational activities
